Words from Chris, our RE:

The last month has been very busy with the solo and road racing seasons off to a roaring start! The bylaws committee has been working very hard to finish updating them so that we can get them out to our members for a July vote.

As we get into the upcoming events we are still needing help to put on some of the events. Street Survival (Mike Hill at [816-678-3540](tel:816-678-3540)) KVRG majors at the speedway (Chris Kern at Chriskseca@gmail.com) are two of our biggest to date with more to follow.

These are great ways to meet new members and maybe run into old members that you have not seen in a long time and besides it is a great way to have fun time doing what we love to do.

See you all at the races!

Chris Kern

Do you have ideas that could help the Kansas City Region SCCA recruit and retain members? Would you like to help the SCCA host quarterly social events?

The KCR SCCA Board is looking for members to help with the following committees:

Bylaws/Operations Manual: We are looking for volunteers to help revise our bylaws and update our bylaws. This committee will prepare these revisions and present them to the members to vote on. This committee will also prepare an Operations Manual containing the important minutes and major decisions of the club to act as a reference and guide for future decisions. If interested in helping,

Contact Jessica Dorn.

Membership: We are looking for help developing plans that will focus on recruiting new members and retaining current members. If interested in helping, contact Donna Cross or Jeremy Salenius.

Nominating: We are getting an early start in seeking nominees for the Board elections. If interested in helping, contact Charlie Clark.

Social: We are looking for help planning and hosting at least one social event per quarter. If interested in helping, contact Dave Vincent.

AND
CAR
SHOW

The American Legion is hosting a Chili Cook-Off & Car Show on August 8. The event begins at 9:00 am. They would like us to come out, taste some award-winning chili and bring our cars. Cars should plan on showing up around 11:00 am.

KCR Members Start Their SOLO Season Early in Salina by Jessica Dorn

The sun was shining, and the weather was warm. It was a perfect day for racing - not just any racing but the first SOLO event of the year! On Sunday, March 22, a handful of KCR members loaded up their trailers, packed their trunks, and headed west to Salina, KS for their opening auto cross event. The warm weather brought out 51 competitors ready to scratch their racing itch on the narrow course that challenged drivers through the slaloms, pinch cones, tight turns, and Chicago boxes.

The Salina Region was extremely welcoming and glad for the large turnout. Several "warm-weather walk-ups" bumped them from a 2 heat day to a 3 heat day. It was a good way to not only polish up our driving skills but to also polish up our process of getting race ready. As we all know, race day can be a little hectic. First, you must prepare for the race and pack the car – tires, tools, tire pressure gauge, tire jack, helmets, sunscreen, snacks, water, Go Pros, etc. Then, you have to drive to the event site, go through registration, and prep the car for tech. Tires need changed, harnesses strapped in, racing numbers placed on the car, cameras set up, and helmets set out before it can go to tech. After you're clear to race, there is a course walk and a driver's meeting. Finally, it's time to race!

John Herrman, and Jeremy Salenius with co-driver Doug Patterson knew the tight handling and quick response of their Mini Coopers could handle the narrow course. But the tight slaloms at the end proved to be a challenge even for the Minis. Chuck Wilson also tested his Subaru BRZ through the turns but was unable to utilize the full potential of his horsepower. Brad Smith, in his Red Devil, handled the course like a champ and came away with the FTD of 40.241.

Results from Salina

Driver	Run 1	Run 2	Run 3	Run 4	Run 5
Jeremy Salenius	44.910+2	44.573+1	44.638	44.623	44.573
J Douglas Patterson	46.777+1	46.603	DNF	DNF	45.821
Charles Wilson	DNF	45.671+2	45.745	44.0654+3	44.285+3
John Herrman	51.203+1	49.653	48.488	47.423	47.368
Brad Smith	42.125	41.831	40.706	40.214	DNF

Solo off to a soggy start

Photos and article by Doug Patterson

The first three rounds of the Kansas City Region SCCA's 2015 Solo Championships are in the books. The festivities began at the Metropolitan Community College Precision Driving Center in Independence, MO with our annual Test and Tune event on Saturday, April 11th, the day before Event #1. The weather for the Test & Tune was magnificent with mild temperatures under a cloud-dotted blue sky. Many of the usual unusual suspects came out to shake loose the rust of the off-season, but we also had a number of novices come out to take part in the insanity that is our sport. In all, 54 drivers took part and prepared themselves and their machines for Sunday's competition.

Sunday's weather was dramatically different than Saturday's. The day began cool and damp as rain showers had passed through the area in the early morning hours. Under a steady and cold drizzle, the set-up crew began their work on course and grid. Once everything was set up and ready to go, the site was hit by a powerful thunderstorm bringing significant lightning and 40+ mph wind gusts. Many of the pop-up canopies that people had deployed were upside-down or inside out. Fortunately the storm was brief and the clean-up was started right away. ...cones, cones everywhere.

The rain wasn't quite finished as the Junior karters and Heat 1 drivers took to the wet course. With the facility being reasonably flat, there were many areas of the course where the drivers had to negotiate their way through standing water. It made for good photo opportunities, but for slow times. The wet track even caught some veteran drivers off guard. Although there were a couple of tense moments as some drivers headed off the asphalt an onto the wet, slick grass, the worst damage done was to pride and to the run times.

Drivers in Heat 2 saw a drying track and warmer temperatures resulting in the times getting quicker and quicker through the session. Fortunately, due to the lower turnout resulting from the forecast, the competitors were divided between the two heats by class. This meant that although the PAX times would be unfairly weighted toward the Heat 2 drivers, the class battles were unaffected.

Events #2 and #3 on April 25th and 26th made up our first of two double-header weekends at Heartland Park Topeka. Although the future of the racing facility remains in doubt, we were allowed to retain our previously negotiated weekend, and we had the place all to ourselves! It was eerie with no other activity on the road course, no roar on Saturday night from the dirt track, and sadly no food vendors open for lunch. A few arrived on Friday to set up the course and get things ready for the show on Saturday morning. Saturday brought early thunderstorms making the drive out an interesting one. The skies remained threatening all day long with intermittent rain showers throughout the morning.

As with Event #1, Heat 1 was run on a wet track with abundant pools of standing water. While there was the occasional sprinkle, there was no other significant precipitation during the heat and the track began to dry out. The decision was made to run the Junior karts between Heats 1 and 2 in hopes of allowing the youngsters the opportunity to race on a dry track. In full accordance with Murphy's Law, however, a steady rain began almost as soon as the karters did, wetting the track and the drivers. Heat 2 remained dry and the temperatures began to climb, and it showed in the run times. The times dropped precipitously throughout the session as grip levels rose.

While Sunday's Event #3 was dry the whole time, the temperatures were significantly cooler than during Event #2 on Saturday. The cooler, denser air might make for more power, but it did horrible things to the grippiness of the Heartland Park asphalt. With traction hard to find, vehicle control, balance, and throttle skills were at a premium. Challenging driving conditions bring the best drivers forward, however. Sadly, this may be our last event at Heartland Park Topeka in light of the City Council's decision to allow the motorsport venue to proceed into foreclosure. We'll have an update on the future of Heartland Park Topeka in next month's Checkpoint.

TIRE RACK® STREET SURVIVAL® teen driver safety is coming to Independence to stop the #1 killer of teens

WHAT: Tire Rack Street Survival® Teen Driving School

WHERE: Blue River Precision Driving School, 20301 Missouri 78, Independence, MO 64057

WHEN: Saturday, May 30th; 9:00 am - 4:00 pm

DETAILS

Car Crashes are the leading killer of American teens from ages 15 - 20, with more than 5,000 teens involved in a fatal crash each year and an additional 196,000 injured.

Simple driving errors, avoidable but common among inexperienced teens, cause the majority of fatal accidents.

- **Tire Rack Street Survival®** is a 501c3 organization and is the largest active non-profit national driver education program that teaches teens the skills they need to stay alive behind the wheel. Unlike traditional driver's education programs based on classroom theory and simple maneuvers, the **Tire Rack Street Survival®** program improves driver competence through hands-on experiences in real-world driving situations.

- Students will receive a short classroom session and then will learn, hands-on, how to manage everyday driving hazards, obstacles and challenges in a controlled environment on an advanced driving course to ultimately **‘arrive alive.’**
- Students learn emergency braking and skid control, how to control proper braking, and **how to avoid accidents entirely.** In select schools, in addition to spending time in the driver’s seat of parked 18-wheeler to fully comprehend its massive blind spots, teenagers witness the violent detonation of an air bag, which reinforces proper hand placement on the steering wheel.
- Students are taught in their own cars, not specially prepared program vehicles, so the skills they learn can be directly translated to their daily driving experiences. **Tire Rack Street Survival® challenges teenagers to understand how to control a vehicle, rather than just operate one.**

Tire Rack Street Survival® is open to licensed and permitted drivers ages 15-21. Forms, schedules and more information can be found online at **www.streetsurvival.org**. The cost is \$75 per student and some insurance companies offer premium discounts to graduates.

The program is in its 13th year having trained 14,800 new drivers. 101 schools were completed last year and the goal for 2015 is over 125 nationally.

For the 6th year, **Michelin North America** is supporting the Street Survival program by providing funding for pavement rental for each school through the United States. That is no small task, given that this year the **Tire Rack Street Survival®** schools plan to offer its training to teens all across the U.S.

To view video of the program, please visit **<http://streetsurvival.org/>**.

Yakety Yak...

Dear Mom:

Paula Diehl is back in her farm home now. After living in several different areas for the past 2½ years due to a fire in her home in Lee's Summit, MO, she has now moved back. She had only been there for about 3 weeks and on Tuesday of this week, she lost her electricity due to Google cutting an electric line.

At the spring Hallett Major Race, two of our Kansas City Region racers "hit the jackpot". Mike McGinley in T1 class and Jim Wheeler in A Sedan class each won their 100th race. Wow, way to go guys!

Charlie & Sharlene Smith attended weddings for two of their relatives in April. Their niece, Melanie was married in Lamar, MO. Since she & her new husband, Ronald wanted a "beach" wedding, they filled the floor of their barn with sand! Charlie & Sharlene then traveled to Gravette, Arkansas for the wedding of a great nephew, Gideon & Danielle. They will reside in Minnesota.

Victor LaViola & Ellen Wolf, who have moved to Tucson, Arizona, were back in Kansas City in March. They have built a new building on their Arizona property for his car "stuff" and her art "stuff", and they were here to pack their remaining belongings. The downtown building here in KC that they called home for all the years they lived here, has been sold. Charlie & Sharlene Smith, Tony & Kathy Giordano, Charlie & Norma Williams all had dinner with Victor & Ellen at the Oak Park Mall Outback restaurant.

Alan & Jennifer Bennett vacationed at Port Aransas, Texas for a week in April. They rode their bicycles all over the town, ate lunch at a Seafood Fish Market and saw some dolphins. They saw a lot of wild life at the Texas State Marine Science Sanctuary. They also visited the State Aquarium and the USS Lexington in Corpus Christi, Texas.

Update on our Checkpoint Editor, Barbara Garrett. Barbara says her eye is better than it was 2 months ago, however, it still has a way to go. We hope she will soon have all of her vision back.

don't look back.....

**Kansas City Region's on-line resource for information,
Online event registrations, updates, results and other fun stuff!**

CHECKPOINT IS THE OFFICIAL PUBLICATION OF THE Kansas City Region Sports Car Club of America. Any opinion expressed is that of the authors and is not necessarily the opinion of the members of the Region, its officers or the CHECKPOINT staff. By publishing advertising in CHECKPOINT the Kansas City Region does not endorse the products of service advertised. Permission to reprint all artwork, photographs and articles published in CHECKPOINT is given to all SCCA regional publications and to SCCA's Sports Car Magazine, provided full credit is given to the author, CHECKPOINT and the Kansas City Region SCCA. Deadline for submission to CHECKPOINT is the first of each month.
